Cube Air System
15 HP Reciprocating

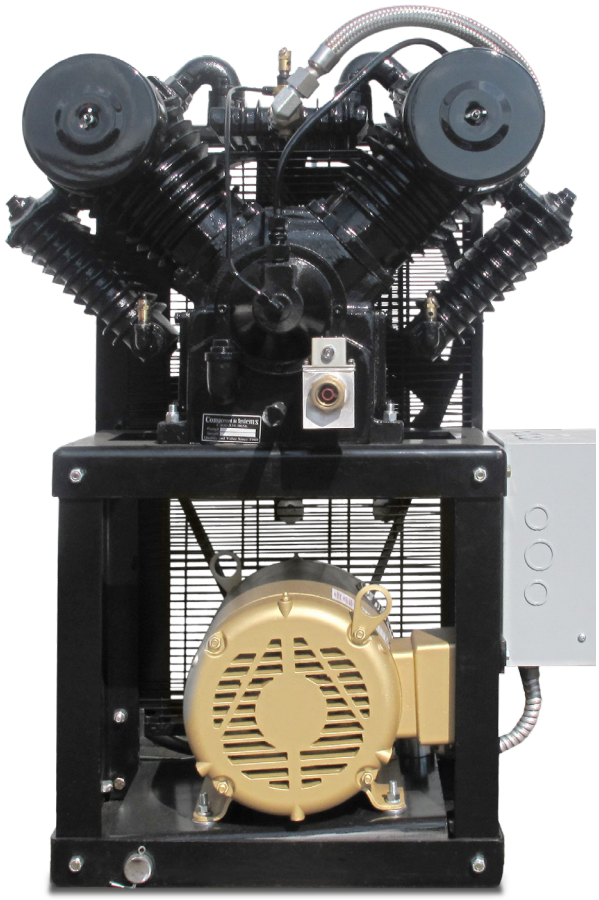

48 cfm @ 175 psi

Basic Compressor Features:
- Cast iron reciprocating compressor pump
- Centrifugal unloader
- Disc and spring valves
- Discharge cooling manifold
- Easy open inline check valve
- Easy service belt guard
- Easy to read oil sight glass
- Easy service reciprocating pump platform
- Extended oil drain tube
- Industrial grade electric drive motor
- Inner stage cooler
- Minimal floor space foot print
- Multiplexing capability
- Rigid steel frame construction
- Self tensioning electric motor base

Platinum Compressor Features:
- All basic compressor features
- Belt guard mounted air after cooler
- Low oil monitor
- High-temp stainless steel flex discharge line
- Vibration isolation mounting pads
- Freight pre-paid in standard freight area

Optional Package Features:
- Class 1 Div 2 drive motor
- Coalescing filtration
- Desiccant air dryer
- Electronic automatic tank drain kit (shipped loose for installation on site) Kit includes: drain, ¼ pipe street 90 elbow, ¼ pipe 6 inch nipple
- Enrollment in factory extended service program
- Enrollment in factory extended warranty plan
- Multiplex control panel
- NEMA 4X electrical components
- NEMA 7 electrical components
- Particulate filtration
- Quick Install Kit Includes: 8ft electrical cord with plug, 6ft compressor to tank air line JIC fittings, 6ft tank to facility air line JIC fittings
- Reciprocating Pump Enclosure for noise reduction
- Refrigerated air dryer
- 30, 60, 80, 120, gallon storage tank (200 psi MWP, ASME, CRN)

Model	Phase	Voltage	Length	Width	Height	Weight	Amp Draw 230 Volt
IGQ153	3	208-230/460-480	30	22.5	40	505	42

Add -P to model number to make Platinum Unit All dimensions are in inches, weight is in pounds, 480 volt amp draw were applicable is approximately ½ or 230 volt amp draw

No Start Up Kit Required ■ Optional 5-year Pump Warranty Available
